Аннотация. Статья посвящена 10-летию юбилею военно-исторического журнала «Военный сборник». Материалом исследования послужили статьи, опубликованные за период с 2013 по 2023 годы. В работе применялись такие методы исследования как метод исторического контент-анализа (историографический/библиографический метод), историко-типологический метод и метод синтеза.

За последние 10 лет, когда журнал был возрожден вновь, в нем было опубликовано 138 статей. Хронологические рамки опубликованных исследований охватывают период с XIX по XXI века. Анализируются такие сферы военной истории как военный флот и армия, Кавказская война, Первая мировая и Вторая мировая войны, Великая Отечественная война, межвоенный период, вопросы быта и функционирования тыловых служб, деятельность отдельных родов войск и многое другое. Самой популярной стала тема Второй мировой и Великой Отечественной войн, на втором месте – исследования, посвященные проблемам военно-морского флота, причем зачастую эти темы объединяются воедино.

Ключевые слова: «Военный сборник», журнал, военно-исторический журнал, 2013–2023 гг., итоги работы.
